

# Environmental Policy

Tristone Flowtech Group as a leading company in the automotive industry, is committed to follow the requirements of the ISO 14001, legal requirements and the expectations of our Automotive and industry customers.

The compliance to these requirements are carried out through these activities:

- **Identifying and complying with legal and other requirements (e.g. given by the OEM) concerning the environment,**
- **Commitment to continual improvement activities and pollution prevention,**
- **Setting of environmental objectives and targets and continuous reviewing of them,**
- **Committment for protection of environment,**
- **Constant raising employee awareness of their impact on the Environment**

All employees are aware that achieving success is indispensable linked with respect for the environment

The company constantly strives to eliminate its negative impact on the environment.

Tristone's management is personally involved in efforts to implement these commitments and maintain an environmental management system compliant with ISO 14001.

The environmental policy is communicated to all employees and is available to the public and interested parties.
